Re Repairs to Veterinary Dispensary buildings in the State

I have the honour to state that the Agricultural Engineer has reported that although he has prepared a number of estimates for repairs to Veterinary Dispensary buildings in the State and obtained sanction for them, he has not been able to take up all the works actually as in many cases it has not been possible to recover completely the quotas due from local bodies as per rules

The result in these circumstances has been that the grant provided in the departmental budget lapses and the buildings fall into a state of disrepair and continue to deteriorate I therefore recommend that Government may be pleased to issue a general order requesting the local bodies concerned to provide every year in their budget 1/12th of the total capital cost of all the Veterinary buildings for which they are bound to contribute for repairs and to make over the amounts so provided to this Department at the beginning of the year alone so that the works may be carried out and the contractors paid in time

I request early orders of Government in the matter

I have the honour to be,
Sir,
Your most obedient servant,

Director of Agriculture
